

Cleaning Machine for piping & hoses

Introduction

The Securro Cleaning Machine is designed to clean all types of breathing piping and hoses for the diving industry.

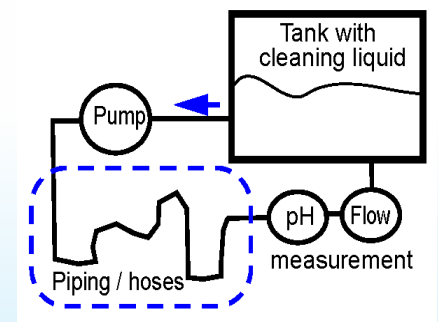

The Securro Cleaning Machine is PLC controlled via an easy to use operating panel.

The benefits of the Securro Cleaning Machine are: small, portable and easy to use.

Specifications

- Partnumber SE-op02-SES
- Housing Stainless steel
- Operating panel PLC controlled
- Power 3 x 400 VAC, 50/60 Hz, 16A
- Heating element tank 9000 W
- Operating Temperature -10 - +40 °C
- IP class IP65
- Noise level < 70 dB(A)
- Flow 75 l/min
- Dimensions 700 x 660 x 830 mm (l x w x h)
- Weight 50 kg
- Portable 4 transportwheels for easy maneuvering
- Connections (5x) Hot water, Air, In, Out and Dump

Additional

The Securro Cleaning Machine can be further extended with pressure and temperature sensing, extra heating, liquid storage unit (automatically filling the Cleaning Machine), booster pump, filter units, etc. etc. on customer demands.
