Flow Alarm Module

Introduction

The Seccurro Flow Alarm Module is a module with 2 inputs to monitor the breathing gas flow in the primary and secundary supply.

The buttons/indications has 3 functions:
- **Green blinking**   = Indication flow
- **Green constant**   = Indication supply active
- **Mute pressed**   = Alarm muted

Specifications

- Partnumber   SE-op04-SES.511

- Power requirements   24 VDC, 0.8 A
- Power consumption   800 mA
- Housing standard   1/4 19" rack mounted
- Height   125 mm
- Width   105 mm
- Depth   175 mm
- Weight   1,000 gram
- Operating temperature   -10 to +50 °C
- Compliance   RoHS

The functionality of this flow alarm module is also available in a combined Flow/Pressure alarm paneel under partnumber SE-op04-SES.510
